

End of Semester Reflection and Survey

- 1) How beneficial did you find the different components of the course with regard to your ability to learn/retain the material? (Circle one for each)

Reading Assignments:

Very beneficial *Somewhat beneficial* *Not beneficial* *Harmful*

Video Mini-lectures:

Very beneficial *Somewhat beneficial* *Not beneficial* *Harmful*

CPAs (Class Preparation Assignments):

Very beneficial *Somewhat beneficial* *Not beneficial* *Harmful*

In Class Activities:

Very beneficial *Somewhat beneficial* *Not beneficial* *Harmful*

Homework Assignments:

Very beneficial *Somewhat beneficial* *Not beneficial* *Harmful*

Midterm:

Very beneficial *Somewhat beneficial* *Not beneficial* *Harmful*

Which **TWO** types of assignments from the course did you find most beneficial? (Circle two)

Reading Assignments *Mini-video Lectures* *CPAs*

In Class Activities *Homework Assignments* *Tests*

Please elaborate on how you feel about the different assignments for the course:

End of Semester Reflection and Survey

2) After taking this course, how do you feel about...(Circle one for each category)

Being an independent learner:

More comfortable

Same

Less Comfortable

Working with a group on in class assignments:

More comfortable

Same

Less Comfortable

Your pride in your mathematical ability:

More proud

No difference

Less proud

Feel free to elaborate on any of the above questions:

3) This question deals with your study habits. (Circle one for each)

When would you typically prepare for class?

Morning before class

Night before class

Earlier than that

When would you typically start your homework?

One day or less before due

2-3 days before due

Earlier than that

Feel free to elaborate on any of the above questions:

End of Semester Reflection and Survey

4) How did you feel about the groups and group work in the course? (Circle one for each)

The amount of work done in a group:

Too much

Just Right

Not enough

The size of groups (three-four people):

Too big

Just Right

Too small

Would you prefer to pick your own groups or have the instructor pick?

Myself

Instructor

Do you prefer working with people of the same gender?

Yes

Don't care

No

Do you prefer working with people of the same major?

Yes

Don't care

No

Consider carefully: What level of ability do you want your group members to have?

Higher than me

Same as me

Weaker than me

Mixed ability

Feel free to elaborate on group structure and group work here:

End of Semester Reflection and Survey

- 5) After taking this class, how would do you classify an “inverted/flipped classroom” experience compared to a primarily lecture-based class in the following categories...? (Circle one for each)

How at ease you felt in an inverted classroom:

Better than lecture

About the same

Worse

Engagement in the material:

Better than lecture

About the same

Worse

Initially learning the material:

Better than lecture

About the same

Worse

Practicing the material:

Better than lecture

About the same

Worse

Retaining the material:

Better than lecture

About the same

Worse

Elaborate on your final impressions, if you like:
